PREFACE TO THE DESCRIPTIONS OF ARCHIVED DOCUMENTARY MATERIALS OF FONDS No. Z OFFICE OF THE HEAD OF CIVIL ADMINISTRATION OF THE TRANSCAUCASIAN TERRITORY.

In 1842, the “Office of the Head of Civil Administration of the Transcaucasian Territory” was established.

The head of the civil administration of the Transcaucasian Territory reported directly to the Chief Administrator of the Transcaucasian Territory, was his closest collaborator on all matters of civil administration of the Transcaucasian Territory, during the absence of the Chief Administrator, performed all his duties and enjoyed all the rights assigned to the position of the Chief Administrator.

In 1859, the fund-former was abolished.

Reason: Historical background of the N-3 fund; Guidebook of the Central State Historical Archive of the CGIA GSSR, p. 64; PSERI, 1842, t.HUP, article 16205 p. 121; Art. 16244, p.151; 1859, t.XXX1У, p. 34148, p.98,99.

Documentary materials deposited during the activities of the “Office of the Head of Civil Administration of the Transcaucasian Territory” entered the Archive / Central State Historical Archive of the GSSR / for storage in 1923.

An inventory of received documentary materials was compiled in 1927. Then, in subsequent years from 1943 to 1962, additional inventories were compiled.

Considering the relevance of the documentary materials of this fund-former and the unsatisfactory nature of the existing inventories of Fund No. 3 “Office of the Head of Civil Administration of the Transcaucasian Territory”, the leadership of the Central State Archive of the GSSR planned in 1965 to create improved inventories of archival documentary materials of this fund, which was accomplished through editing the main inventory M-1, / previously consisting of 8 handwritten books / and the compilation and printed inventory subject-thematic index.

The existing one book with 9 additional inventories was subject to revision. The first additional inventory was created along with a subject-thematic index and a conversion table.

When editing the 1st main inventory, the following numbering of storage units / files / and their chronological location in the inventory were preserved.

In the first additional inventory, the numbering is new, starting from the first number.

Storage units are arranged in chronological order.

Subject-thematic indexes to the 1st main inventory and to the 1st additional inventory of the fund are compiled according to the inventories, i.e. the subject and theme were revealed from the headlines, and not from actual cases.

A scheme was developed for subject-thematic indexes. There are 17 sections in the scheme. Each section has its own name.

Sections are arranged in the index in numerical and alphabetical order. Each section includes relevant subjects and topics, arranged in their own sections in alphabetical order.

Opposite each name of a subject-theme, the numbers of storage units containing the specified subject-subjects are indicated.

SCHEME OF SUBJECT-SUBJECT INDEX

1. Improvement of cities and other places.
2. Statesmen of the Russian Empire and other countries.
3. Borders of the Russian Empire, Nordic lines, fortifications and fortresses, military operations in the Caucasus.
4. Plants, factories, establishments,
5. Healthcare.
6. Serfdom.
7. Culture.
8. Seas, rivers, irrigation ditches, piers, mills and other natural and artificial water places and structures.
9. Relocation / internal, abroad, from abroad/.
10. Minerals and industries in the Caucasus.
11. Crimes and the fight against them.
12. Miscellaneous.
13. Religion.
14. Relations of the Russian Empire with foreign countries.
15. Agriculture.
16. Trade.
17. Institutions and conditions of service in the Caucasus.

NOTES:

Storage unit No. 1646 for 1851 in the old inventory was mistakenly included in the 1850 section, and it was left as such in the new inventory to avoid changing the numbering.

When working on inventories, in cases where the headings did not fully or did not at all reveal the contents of the documentary materials of the storage units, such storage units / files / were checked in kind and new headings were compiled to reflect the content of the documentary materials.

Inventory No. 1 lists 4194 storage units from 1848-1857. In 1-2 additional inventory there are 716 units, records for 1842-1859.

In total, 4910 storage units are listed in the bond according to the inventories, for 1842-1859.

The work on creating an improved inventory No. 1 - / main / was carried out by Danokova R.G.

The work on creating an improved additional inventory M-1 was carried out by Melikset-Bek L.L.

Compiler of the preface, senior researcher at the Central State Archive of the CGA GSSR /signature/ Dankova R.G.

May 28, 1966
